EXPERIENCE

Senior Director of UX/UI | UNTUCKit

New York, NY | 09/2021 to 02/2026

- Reported directly to CEO and partnered with CTO to define digital product strategy across web, mobile, and 80+ retail locations across the United States
- Transformed underperforming search into AI-driven revenue engine, collaborating with external vendors on AI integration to achieve 10% conversion rate (100% lift from 5% baseline) and \$890K incremental quarterly revenue through semantic search and personalized recommendations
- Led strategic navigation and product listing page redesign achieving 23% conversion lift year-over-year, based on user research including usability test analysis, session recording reviews, and stakeholder interviews
- Drove 37% revenue increase through product detail page redesign and content hierarchy optimization, improving product discovery and customer engagement
- Built and scaled design operations including component library, design system documentation, and ML-driven personalization and A/B testing program using Dynamic Yield and Quantum Metric, improving design-engineering collaboration and delivery efficiency
- Led Verizon B2B partnership creating new enterprise revenue stream, designing custom B2B e-commerce experience and managing agency handoff for implementation
- Mentored cross-functional team members and collaborated with omnichannel leaders across marketing, retail, and digital to unify customer experiences. Delivered strategic insights to C-suite leadership in Agile/Scrum environment

Director of UX/UI, Corporate Vice President | New York Life Insurance

New York, NY | 07/2020 to 09/2021

- Led enterprise marketing website redesign for NYL.com, overseeing two external agencies with 20+ designers and product managers while managing internal design operations for Fortune 100 financial services company
- Defined enterprise-wide digital design strategy, aligning marketing, product, and engineering teams across multiple channels. Established design governance frameworks and KPIs
- Built design governance framework streamlining agency coordination and workflows, delivering 50+ projects within one year

Manager of UX/UI | Visionet Systems

New York, NY | 05/2018 to 06/2020

- Scaled agency UX practice from 1 to 7 enterprise clients in 18 months through strategic client acquisition and delivery excellence
- Delivered e-commerce platform redesigns driving 45% year-over-year revenue growth for key client, including responsive product listing pages, product detail pages, and checkout flows
- Led e-commerce redesigns for Regeneron, CPO, Mattress Firm, Rebecca Taylor, and Parker NY across Magento, Salesforce Commerce Cloud, and Shopify platforms
- Oversaw global design team of 5 designers, establishing scalable workflows and professional development programs

Senior Interaction Designer | Ralph Lauren | 09/2013 to 05/2018

- Led design for brand's first watch e-commerce site generating \$7M in limited edition sales. Designed luxury shopping experience including product configurator and premium checkout
- Created Olympics digital campaigns and led UI migration to Salesforce Commerce Cloud platform, establishing scalable design patterns

Senior Web Designer | Conde Nast | 08/2010 to 08/2013

- Designed digital runway and editorial experiences for Style.com, delivering engaging luxury fashion storytelling. Mentored junior designers

Founding Designer (Contract) | LePrix | 10/2010 to 10/2014

- Co-created digital platform from ground up, defining brand and product vision driving 785% YoY growth

Web Designer | Macy's.com | 08/2006 to 08/2010

- Redesigned women's accessories microsites, increasing conversion 28% through data-driven UX optimization
